

Dorset Advocacy

Advocacy for Carers

Our Advocates work in partnership with people who are facing difficulty or disadvantage, making sure their wishes are heard and acted on.

Advocates help carers with:

- Care assessments and support planning
- Getting services and support for yourself or the person you care for
- Meetings with social services to assess your or their needs
- Helping you to speak up about problems you are having

For some types of Advocacy, we can only accept referrals from professionals. Carers can self-refer in the Bournemouth, Christchurch and Poole areas.

For more information please contact us:
